

PARKING LOT

Brighter. Safer. "Greener".

The difference is "night and day"...

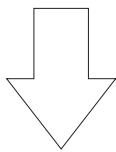

Before

After

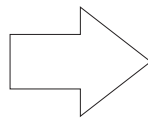

LEDs Replace Metal Halide

- Staples Headquarters, Framingham MA
- Exterior parking lot
- One to one fixture retrofit of 400W metal halide to 168W LED fixture

Reduced Environmental Impact

- Reduction of CO₂ emissions
- Reduction of greenhouse gas emissions equivalent to those from 14 vehicles each year

Outstanding Results

- Reduction of light trespass
- Brighter, whiter light
- Annual energy cost savings = \$32,387
- Annual maintenance savings = \$27,302
- Utility rebate = \$37,000
- Annual energy savings = 162,184 kWh
- Payback = 2.3 years

the Qube™

The Qube is quickly establishing itself as THE replacement for Metal Halide. Using but a fraction of the power and yielding the same or better light output as corresponding Metal Halide fixtures, the Qube offers exceptional performance, very long life and quick return on investment.
